

The new Support Page for the Go-Lab Portal is now online!

If you are not very familiar with the functionality of the Go-Lab Portal yet or want to learn more about its scope and possibilities - find useful guidelines, manuals, video-tutorials, tips & tricks and a lot more information at our new [Support Page](#). Don't hesitate and have a look!

Webinars are running on the Go-Lab Tutoring Platform!

Dear friends,

Half of the year is over, the summer has finally come and many news around the Go-Lab Project are waiting for you - so it's time for the next newsletter!

This edition reports about the third pilot phase starting in November, the winners of the Teacher Contest and new features of the Go-Lab Portal. So enjoy and get informed!

P.S. Join our [social community channels](#) to get the breaking news every week!

Open Call for 1,000 Schools!

The third pilot phase of the Go-Lab Project is starting in November this year and we are looking for 1,000 schools from all over Europe to join us and become a part of the Go-Lab family! Together with the participating teachers we want to enhance the Go-Lab Portal and integrate the use of innovative tools and teaching practices in the everyday school life. The pilot teachers get the chance to join the dynamic Europe-wide Go-Lab community and to use sophisticated online labs and Inquiry Learning Spaces (ILSs) in their classes.

Find out more information about the foreseen pilot activities in different countries as well as the application form on the [Go-Lab website!](#)

Attend webinars and online support sessions on our [Tutoring Platform](#) and learn from the experts and experienced teachers of the Go-Lab community!

How to use the Go-Lab Portal? How to create and publish own Inquiry Learning Spaces? Find an answer to any question you have! [Enrich your knowledge](#) now!

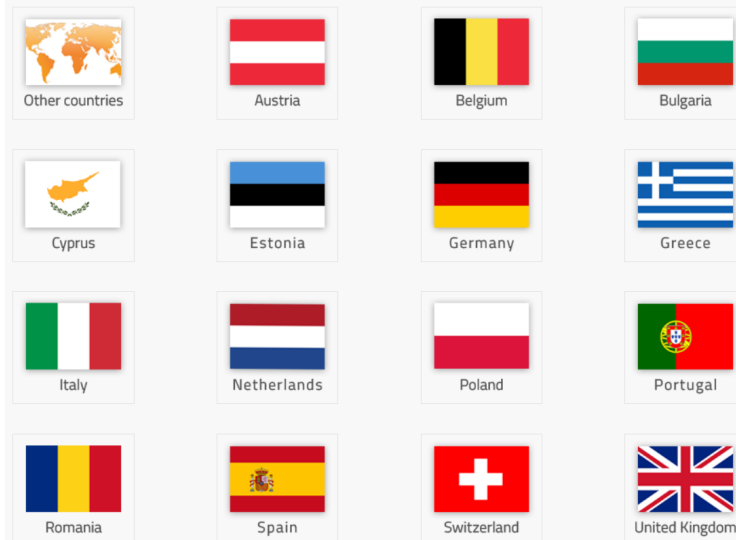

Go-Lab Portal: share your ILS with teacher community!

The [Go-Lab Portal](#) has a new function: hence you can publish your created ILSs and make them accessible for other teachers. You only have to click the "publish inquiry space" button and your ILS appears in the [Go-Lab Repository](#)!

Meanwhile, 131 ILSs are available which you can check, copy and use!

Congratulations to the Winners of the Teacher Contest 2015!

The 22 winners of this year's Teacher Contest "Teaching through Inquiry" have been chosen and we are glad to announce them! They will enjoy a trip to Greece participating in the Go-Lab Summer School 2015 at Marathon Bay in Athens, July 12th - July 17th, 2015.

Find the names of the lucky winners along with the countries on the [contest website](#).

The Go-Lab Project thanks all participants for their great submissions! We will be glad to welcome you in the [Go-Lab community](#): share your expertise with other teachers, discuss your ideas and experience, ask Go-Lab experts for more information and benefit from using the full range of Go-Lab functionalities!

Propose an online lab for the Go-Lab Repository!

The [Go-Lab Repository](#) keeps growing and already includes 115 online labs. Is your favourite online lab still not on the list? Now you have an opportunity to propose a lab to be added to the Repository! Simply enter the online lab data [here](#) and we will include it in Go-Lab.

You can also access this form directly from the Repository: scroll down the [Online Labs page](#) and find the "Propose a lab" button under the search menu on the right. Propose an online lab and use it together with other Go-Lab tools in your inquiry learning activities!
